Subject Comment - Review of the  
Operation of the GIPA Act

I am writing to request that the requirement of Schedule 1 of the Regulation Part 3, 2a in relation to internal configurations on plans and the (i.e. that we not to provide "the plans and specifications for any residential parts of a proposed building, other than plans that merely show its height and its external configuration in relation to the site on which it is proposed to be erected") be reviewed as part of your current review of the operation of the GIPA Act. We support the view of many councils that it is often very difficult to redact this information from plans received and often this information is available in the public domain regardless. For instance, real estate agents always show the internal configuration of residential houses for sale.

Thank you for your consideration.

Regards, Kirsty
