Dear Sir / Madam.

Review of Defamation Act  
2005.

This submission is under six headings

1. Overall Aim
2. The need for adequate penalties for liars.
3. Men (young and old) under attack
4. The dire consequences of the sabotage of volunteer organisations.
5. State Informers and the Family
6. End Result - a nation in gaol.

The crime of false accusation has been a crime for thousands of years. It is the Eighth Commandment and carried a heavy penalty under Mosaic Law.

Nevertheless false accusation is now tolerated and indeed required under NSW Law. It should be restored as a criminal offence with an automatic gaol sentence (like contempt of court) if found to be false, unsubstantiated

or facetious accusation by one citizen against another,  
(goad, not compensation, which is a tool of the rich -  
- can a desecrator pay compensation ??)

Are all men paedophiles?

Miranda Devine of the Daily Telegraph has documented instances when men were reluctant to come forward and assist a child in danger of injury because of the risk of paedophile charges.

Indeed many men are not prepared to volunteer for any work involving children and become suspect if they do. (primary school teachers, sports coaches, dance instructors, bible school teachers etc.)

Young men are now reluctant to mix socially with women (explain enclosed pages of socials from DT) no wonder they turn to alcohol, drugs and prostitutes.

The teaching and medical professions are now compelled to be State Informers in NSW (no! its not Nazi Germany or Soviet Russia). On the least suspicion they are obliged to report any hint of "child beating". As result, a large proportion of parents have been defamed. Ask DOCS for the figures!

This state excused defamation has to be repealed. Defamation must not be "defended" by law.

It is an all out attack on the family.

False accusation is a tool of the social engineers. It is intrinsic to them that they cannot admit a mistake (look at POLPOT's social engineering). They will be unwilling to reform this mad cap experiment (or is it a plot to emasculate Australia?)

Common sense and social instinct surely tell us that :-

all parents are not child beaters -

all youths are not rapists .

all men are not paedophiles or paederasts..

all husbands are not wife beaters.

So why licence state spies who have been convinced by the social engineers and radicals that they are. There will a social remedy to such folly!

Rather than put the whole nation in one big gaol, why not put in gaol those who make false accusations and defame; for the rest of their life; innocent men, boys and women.

To borrow from the great Edith Cavell :

Enthusiasm is not enough!

One must have a heart free of all suspicion & malice against family - males and females. and no anonymous false witness.

Yours Truly

Kevin McManus J.P.

P.S. You will see the result of harassment of males in the DT clipping November 21st.

53 girls  
17 boys.
